ABOUT ME

A third-year Information Systems student, I am passionate about Front-End Development and continuously enhancing my skills to create user-focused and responsive web designs. I aspire to join an innovative team to contribute to building impactful digital solutions.

WORK EXPERIENCE

Portfolio Website

- A personal portfolio showcasing my projects, hosted on Firebase.
- Built using HTML, CSS, and partially JavaScript
- Focused on creating a responsive and clean design to improve user experience
- [View Project](#)

Books & Services Website

- A platform offering services and displaying curated book collections
- Developed using HTML, CSS, and JavaScript
- Emphasized responsive layouts to ensure seamless performance on various devices

Hospital Simulation Website

2024 - 2025

- A simulated hospital website created for training purposes
- Gained experience in structuring multi-page layouts and practicing real-world development scenarios

CAREER OBJECTIVES

- To secure a Front-End Developer role where I can apply my technical skills in HTML, CSS, and JavaScript to create engaging and functional web applications.
- To continuously learn and adapt to new technologies in web development, including modern frameworks and tools.
